**20-2 I** Architectural Interior Lighting

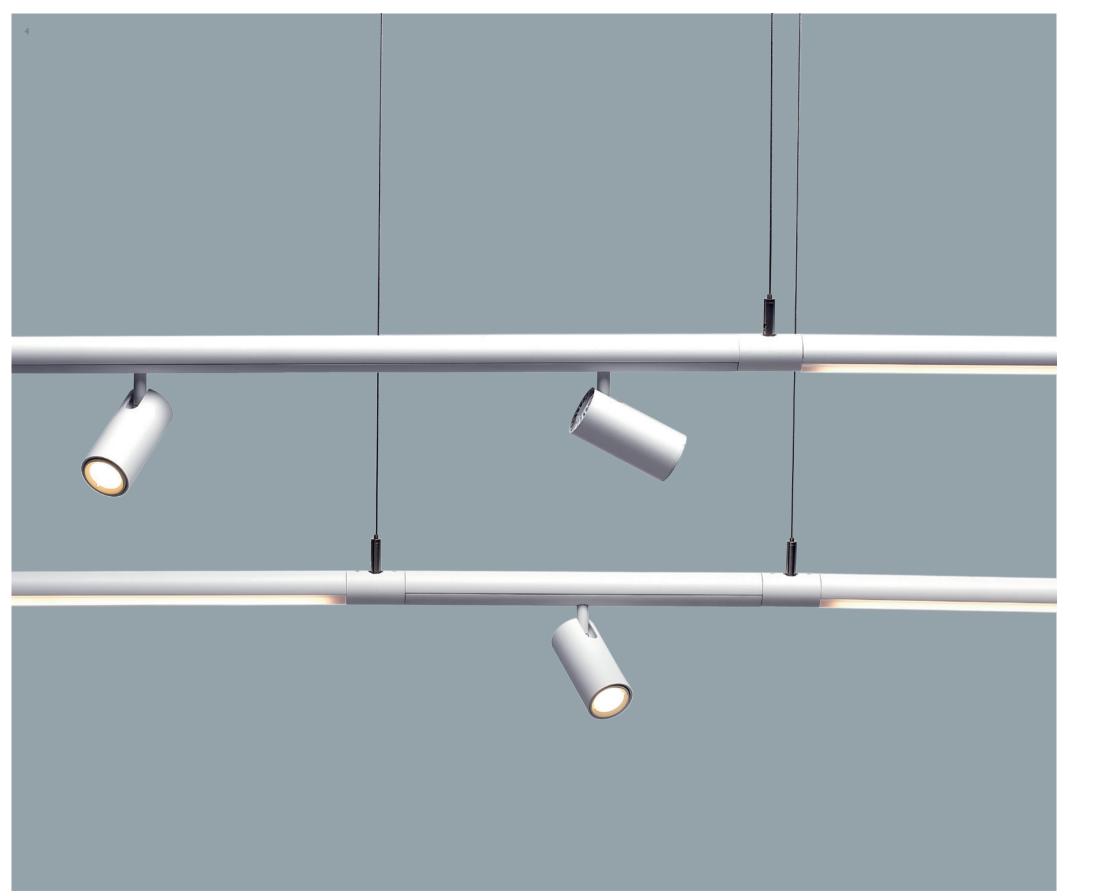

# MACRON

# SLIMLITER | LINEAR SYSTEM

# BeThe Light

Lighting has the ability to breathe life into a space, to fulfill design aspiration and to spark passionate emotions.

# Slimliter

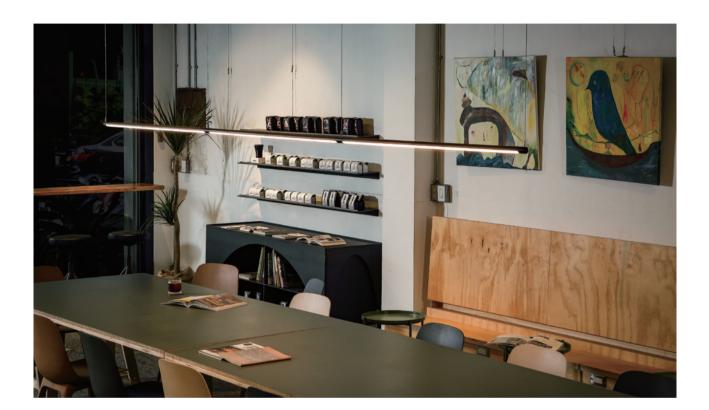

simplifying installation.

Slimliter is redefining architectural linear lighting to its most essential and simple form. Its slim profile and well-defined aesthetic bestow design and character to a broad range of architectural spaces. The modular design of Tube and Spot along with a wide selection of connectors breathes fresh air into lighting design making it fun, infinite, and engaging while

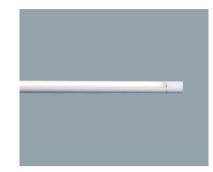

The incarnation of Slimliter System is to provide designers a foundation to develop bespoke lighting that integrate seamlessly to their architectural aspirations.

#### Slimliter / Tube

## Tube

Slimliter Tube is a modular linear illuminating element that delivers functional and uniform lighting. Its streamlined and lean profile declares a design statement while acting as an architectural element to fulfill the design aspiration.

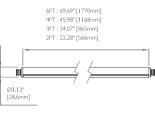

Aesthetic illumination in a slim and refined profile Delivers uniformly diffusive lighting up to 70 lm/W and 6 W/ft.

Continuous 360 degrees rotation Unique mechanical design enables endless rotation and directional aiming at any position.

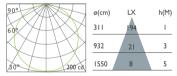

Exceptional quality of light Proprietary optical lens that shield light source and provide uniformly diffusive illumination.

Infinite possibility Extensive portfolio of accessories to accommodate any designs, shapes, and length. Available in stem mount and suspension mount.

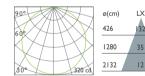

90CRI | 3000K

## Spot

Slimliter Spot delivers exceptional accent lighting adding new horizons of design and functional possibilities to the already versatile and comprehensive Slimliter System. It seamlessly integrates with Tube both aesthetically and mechanically to achieve minimal simplicity in all aspects.

#### Modular spotlight

Ø1.13\*

[28.6mm]

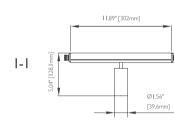

Comes in standard one and two feet modules. Delivers up to 450 lm per spotlight. Extremely easy installation.

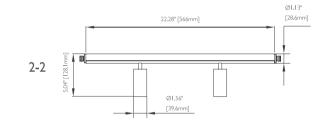

**Seamless integration** Connects to the rest of the system through the proprietary jack mechanism. Fine-tuned dimming synchronized with the rest of the system.

**Excellent accent lighting** Available in three beam angles. Field-interchangeable optics and accessories.

## Customization

We envision Slimliter to be a singular and evolving system that shall not be limited to standard setups and accessories. Macron has welcomed bespoke projects utilizing the capability and aspiration of Slimliter, such as library lighting and stem-mount suspension applications. We encourage designers to be innovative and original based on the Slimliter platform.

These recommended drivers have been extensively tested by MACRON Lab on reliability and dimming performance. These drivers are covered under Macron 5-year warranty. You could find specifications and more information at www.macrongroup.com
